## SOUNDS REPRESENTED BY VOWELS.

O as o in note, but as approaching to aw in law. A as a in father, or short as a in rival. U as oo in moon, or short as u in pull. E as a in hate, or short as e in met. as i in pique, or short as i in pin. V as u in but, nasalized.

### CONSONANT SOUNDS.

G is sounded hard, approaching to k; sometimes before e, i, o, u and v, its sound is k. D has a sound between the English d and t; sometimes, before o, u and v, its sound is t; when written before I and s the same analogy prevails.

All other letters as in English.

Syllables beginning with g, except ga, have sometimes the power of k, expllables written with tl. except tla, sometimes vary to dl.

### INDEX.
